Re: Guardian Fraud and Abuse

Honorable Justices

You are notified of a guardianship scam involving employees of the NYS Unified Court System, New York City social service agencies and the Jewish Association for Services for the Aged, "JASA" whose employees are involved the criminal conversion of dependent assets and other serious crimes.

Attached is the first page of a petition signed by State citizens requesting an investigation of New York Court and City officials involved in sham guardianship proceedings. I request that an independent authority investigate the wrongdoing as Frank Kenna, who works for the Office of the Investigator General in Manhattan, is alleged to have tampered with a witness .

In addition to abuse of dependents and criminal conversion of dependent assets, witnesses have been threatened by JASA and public employees.

Further I requesting you intervene in the guardianship proceedings involving Mircea Fersedy in Queens County currently before Judge Charles Thomas and move all proceedings north to Kingston or beyond away from the influence of JASA and City officials.

All allegations have been carefully documented . Some items follow as part of this facsimile transmission, others are posted on the web to alert the public and some will follow in the mail. Evidence includes audio recordings, e-mail and paper documents.
